BRIEF ABSTRACT OF LETTER

Adverting to G.O. No 8834-40 dated 15 1913 sanctioning a lump sum grant of Rs 13000/- for the working expenses of the workshop section of the Chamrajendra Technical Institute requests orders defining the powers of the President of the committee (D.P.I. of Edn) as to the contingent expenditures

NOTES AND ORDERS

The comptroller states that at the instance of the President of the committee he has authorised him to draw the amounts required from time to time on abstract contingent bills and accounts for them on detailed contingent bills and that this is necessary to

D O No 102 Dated 27th July 1914
(1 file sent separately)

Dear Mr Shama Rao

I have carefully gone through the correspondence about defining the powers of the Inspector-General of Education to incur working expenses of the Workshop section of the Chamarajendra Technical Institute Mysore in his capacity as President of the Institution and also perused G O No 11 8-200/ G M 310-12-39 dated the 9th August 1913 and the draft order put up by the Secretary s office

I note from the correspondence that the Secretary of the Chamarajendra Technical Institute has at the instance of the President been authorized by the Comptroller to draw money required for expenditure by means of contingent bills In spite of this procedure the expenditure cannot become contingent expenses which are entirely final charges and are trivial in the majority of cases The working expenses connected with the Workshop are on the other hand wholly suspense charges reimbursible in the shape of recoveries for work done and consist of (1) values of a large quanitity of materials to be held in stock for readily taking up manufactures and repairs and (2) certain amount for payment of labour and other Miscellaneous charges such as for lighting sweeping and repairing the shop &c As regard the 1st of these two items an approximate estimate may be framed provided for cost of articles that much be stocked with quantities and rates and got sanctioned once for all by the Government Item (2) cannot be estimated even with a fair degree of approximation as these depend upon the number of work indents coming into the shop

These items are of the ~~same~~ nature of works in the P

and

and as the Inspector-General is the head of a Department I would suggest that he be given the same powers of sanction for works and tools and plant as are now being exercised by the Chief Engineer of the P W D When the sanction of Government is obtained for the limit of stock to be held in reserve and for the total debit to orkshop viz Rs 13 000/- all that the Comptroller has to see is that at no time these limits are exceeded

As the Workshop has to undertake many wo rs the principle to be applied to the execution of works in the P W D are to be applied here also Hence the Secretary in charge of the institute may be kept in funds by letters of credit and not by contingent bills The Secretary may apply to the Comptroller for letters of credit monthly through the President and the funds required by him may be granted by the Comptroller so long as the net debit balance against the Workshop is within the sum of Rs 13 000/-

The Secretary will have a cheque book and draw monts from the treasury by issuing cheques again t his letter of credit He will maintain a cash book in the P W D Form No 4 and systematically record in it all moneys he may receive whether from treasury towards the value of cheques issued or from parties towards values of works done or to be done or miscellaneous purposes He will also shew in the cash book expenditure he incurs specifying the purposes A regular monthly account consisting of an account current Workshop suspense account showing the debits against the Shop and credits realised from it and detailed outstandings against jobs undertaken may be submitted monthly to the Comptroller for audit

In the case of Director of Industries and Commerce every experiment which he ma es can be considered as a final charge for no return is expected from it But in the case of a orkshop the major portion of the expenditure is a suspense charge

(8

to be subsequently recovered from parties and all that is required in this connection for the Government to see is that the original limit of suspense charges which was authorised by them is not unauthorisedly exceeded Hence I am afraid that the investment of the same powers referred to in G O No 1198-200-G I 310-12-39 dated the 9th August 1913 to the President of the Chamarajendra Technical Institute will defeat the very object of the Committee with which a large initial grant was applied for and sanctioned and an insistence in the direction by Government may only result in hampering the operations of the Shop

If any capital expenditure is to be incurred such as erection or improvement to a building obtaining of additional machinery estimates will be duly submitted to the Government for orders and further action taken on receipt of such orders

Yours sincerely

(Sd) V Ranganswam Iyengar

the powers of the President of the committee for the Technical Institute in incurring the contingent Expre of the Institute

Order Thereon 15-92-3

No Dr

The Comptr has stated that at the instance of the DG of Edn who is the President of the committee for the Technical Institute the Secretary to the committee has been authorised to draw the amounts required from time to time on abstract contingent bills and account for them on detailed contingent bills The DG of Edn is of opinion that the existing practice may continue

As regards the powers of sanction ~~required~~ there are two items of expenditure to be incurred out of the allotment of Rs 13000 referred to in the letter read above viz (1) purchase of stock materials & (2) payment of labour and other miscellaneous charges

5

(R S 27]

GENERAL AND REVENUE SECRETARIAT

(Continuation sheet draft form)

According to the details given in the
G O dated 18th May 1913 read above the
estimated cost of the stock
materials, timber & metals
required for the workshop is Rs 7000,
& the cost of labour tools & plant
& miscellaneous articles, is Rs 6000
The DG of E&M is requested to
intimate specifying the quantities of the
stock materials required & the
rates at which they can be pur-
chased, in receipt of which Govt will
obtain sanction
once for all for the maximum
amount to be spent on such
articles each year Regarding
the labour & other miscellaneous
charges the DG is authorised to
incur expenditure within the
extent of the allotted grant subject
to the following limitations -

(a) Wages or temporary pay
to any individual not to
exceed Rs 30 per mensem

(b) Other items of charges not-

6

exceeding Rs 50 in each individual
